Allowable Subject Matter

1. Claims 1-14 are allowed.

The following is an examiner's statement of reasons for allowance:

The allowability of the independent claims 1 and 10-11 resides, at least in part, in that closest prior art of record Saito et al. (U. S. Patent 6,018,690) does not disclose or suggest, alone or in combination, a variable maximum power consumption apparatus, which is supplied with electric power from a power supply, and an amount of power consumed by the configuration units as power consumption information, a medium retrievably storing the configuration units constituting the variable maximum power consumption apparatus and an amount of power consumption corresponding to each configuration unit, in order that a computer calculates a power consumption of the variable maximum power consumption device based on the configuration information and the power consumption information and performs a predetermined processing based on the power consumption value thus calculated, in combination with the other elements and features of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
